

Controlled Tilting Ergonomic Handling

Built to support safer door handling between horizontal and vertical positions.

The Tracy TG-F uses a robust free-roller conveyor and assisted tipping design to reduce physical effort, improve ergonomics, and support smoother transfer around door production lines.

Designed and Engineered for Production Flow

- **Assisted Tipping:** Helps move doors between horizontal and vertical positions with less operator effort.
- **Surface Protection:** Non-marking urethane rollers help reduce scratches and handling damage.
- **Free-Roller Transfer:** Supports smooth manual movement while keeping the system simple and reliable.

Length: 8' 10"
Width: 6' 8"
Height: 3' 2"-3' 8"
Weight: 833 lbs

Air Pressure: 100 PSI
Footprint: 59 sq. ft.

Available Conveyor Models

- **TM-E:** Motorized conveyor for automated lines.
- **TG-C:** Free-roller for manual transfer.
- **TG-F:** Free-roller for safe vertical transfer.
- **TM-I:** Scrap conveyor for waste evacuation.

20+ Years of Door Industry Experience

Eugénie helps exterior door manufacturers build more capable, reliable, and scalable production lines. Every machine is backed by hands-on expertise from layout and commissioning to support, optimization, and future growth.

Operator Safety

Assisted tipping and adjustable height help improve ergonomics and reduce lifting effort for operators.

Low Maintenance

High-quality components and a robust free-roller conveyor design help simplify upkeep and keep production moving.

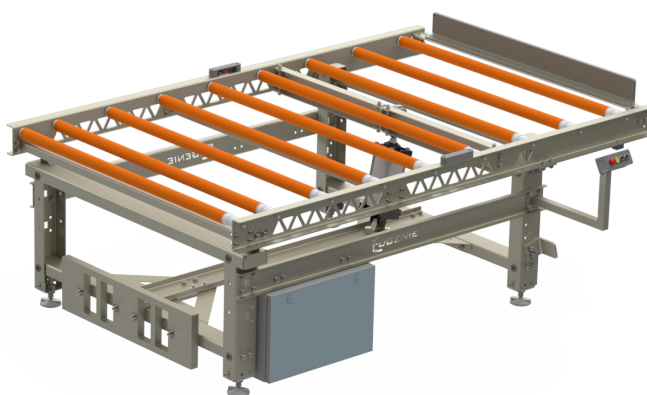

Door Protection

Urethane-covered rollers help protect finished door surfaces throughout transfer, tilting, and positioning.

Layout Flexibility

Modular configurations, adjustable height, and flexible infeed/outfeed options adapt to your production flow.
