

Clean Workshop

Reliable Evacuation

Built to evacuate cutouts, scrap, chips, and machining waste from production areas.

The Tracy TM-I keeps workshops cleaner by moving waste away from machining stations and supporting smoother production flow. It can operate independently or integrate with Kathy models for automated waste evacuation.

Length: 10' 5"
Width: 9' 1"
Height: 1'

Weight: 890 lbs
Footprint: 94.61 Sq. ft.

Available Conveyor Models

- **TM-E:** Motorized conveyor for automated lines.
- **TG-C:** Free-roller for manual transfer.
- **TG-F:** Free-roller for safe vertical transfer.
- **TM-I:** Scrap conveyor for waste evacuation.

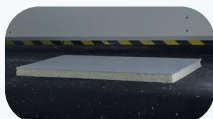

20+ Years of Door Industry Experience

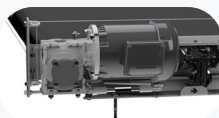

Eugénie helps exterior door manufacturers build more capable, reliable, and scalable production lines. Every machine is backed by hands-on expertise from layout and commissioning to support, optimization, and future growth.

Safe Environment

Reduce waste buildup around machining areas to support a cleaner and safer production environment.

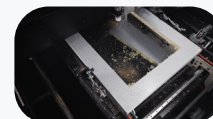

Low Maintenance

High-quality components and a robust conveyor design help simplify upkeep and keep waste handling running reliably.

Industrial Durability

Reinforced construction is built to handle abrasive debris and demanding workshop conditions with dependable performance.

Line Integration

Operates independently or integrates with Kathy models for smooth, automated waste evacuation.
